Events

Biodiversity data use and application workshop 22 October 2024
Oct. 22, 2024, UiO, campus Blindern, Oslo

Course on Open, Reproducible and Transparent Science in Ecology
Nov. 4, 2024 – Nov. 9, 2024, Hjerkinn, Dovre, Norway
Add to calendar

BioDATA Advanced course, November 2024 in Kruger, South Africa
Nov. 18, 2024 – Nov. 21, 2024, Kruger National Park, South Africa
Add to calendar

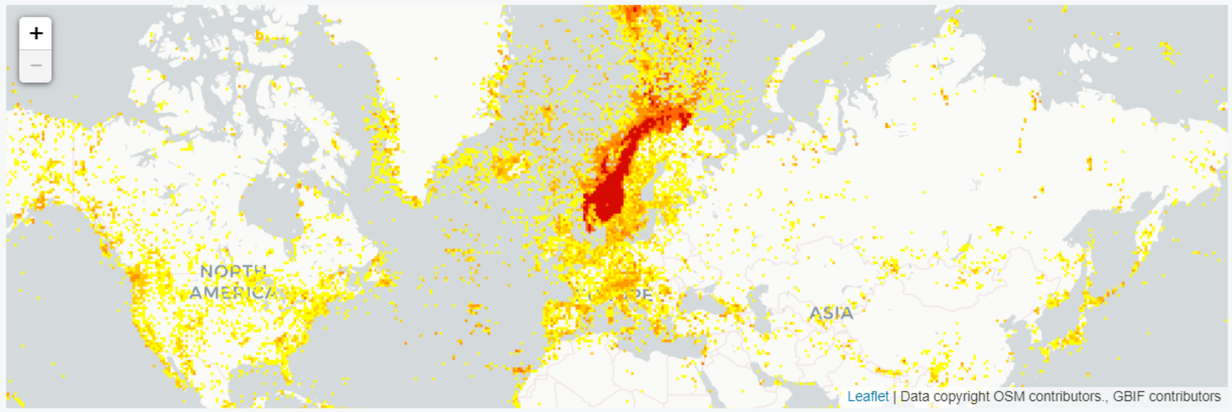

Training course working with biodiversity data
Nov. 20, 2024 – Nov.

GBIF Norway is the Norwegian participant node in GBIF.

Our main task is to make primary data on biological diversity from the Norwegian collections and observation databases freely available and to coordinate and support GBIF-related activities and data use in Norway.

Why publish on GBIF?

- **Global Reach**:
  Publishing data in GBIF increases its accessibility to a global audience, improving its visibility and impact.
- **Quality and Standardization**:
  GBIF provides tools to improve data quality and standardization.
- **Compliance**:
  GBIF enables researchers to comply with data sharing policies, easier to share and reuse data.
- **Community**:
  Publishing data in GBIF connects you to a global community, promoting collaboration and partnerships.
- **Easy Sharing**:
  GBIF provides a user-friendly interface for sharing data, and enables you to track usage and impact.

by Cecilie Svenningsen

How to proceed?

Endorsed organizations can publish to GBIF – most of you will be affiliated with one.

Once data is correctly formatted, it can be published through e.g. Musit, Artsdatabanken, BOLDsystems, the GBIF.no IPT (ask us! ←)
